

Why use Jamf Now?

Jamf Now is a cloud-based mobile device management (MDM) solution for Mac, iPhone and iPad devices in your school or workplace.

AUTOMATIC SETUP

Automate device enrollment to eliminate tedious manual setups.

DEVICE SECURITY

If a device is lost or stolen, it can be remotely locked or wiped completely.

WI-FI SETTINGS

Configure your devices to automatically join your secure wireless networks.

DEVICE INVENTORY

Keep track of device settings with current details and status reports.

APP DISTRIBUTION

Distribute free apps, or ones purchased through Apple's Volume Purchase Program (VPP), to devices.

EMAIL SETUP

Automatically configure company email accounts to all of your devices.

Easily Manage Your Apple Devices

We created Jamf Now as a simple, intuitive way for anyone to set up, manage and protect Apple devices, anytime from anywhere.

To learn more about how Jamf Now can make an impact on your macOS and iOS deployments, please contact your sales representative.
